

September 29, 2023

I hope this letter finds you well. I am writing to formally request a variance to allow the installation and display of a branded flag at our premises located at 6963 W Broadway. This request is in alignment with our desire to enhance our brand visibility and identity within the community, and we believe that the display of our flag will contribute positively to this objective.

The branded flag we intend to install is designed to showcase our company's logo, colors, and branding elements. It will serve as a symbol of our presence in the local community and as a means to communicate our commitment to our customers and the community at large.

To ensure that the flag installation is following all relevant local regulations and codes, we have undertaken a thorough review of the local zoning ordinances, building codes, and any other applicable guidelines. We are fully prepared to adhere to any specific requirements or conditions that may be necessary to obtain approval for this installation.

We are confident that the presence of our branded flag will have a positive impact on our community, contributing to its visual appeal and potentially attracting more visitors to our area. We believe it will also serve as an important marketing tool for our business, helping us to better connect with our customers and the community.

In consideration of the above, we kindly request your approval for the installation and display of our branded flag at our premises at 6963 W Broadway. We are committed to ensuring that the installation is carried out safely, professionally, and in compliance with all local regulations. We are also open to any conditions or restrictions that you may deem necessary to grant this variance.

Please find attached to this letter the following documents for your review:

- A detailed plan illustrating the proposed location of the flag.
- Specifications of the flag, including dimensions, materials, and design.

Thank you for considering our variance request. We look forward to your positive response, and we are confident that the installation of our branded flag will be a valuable addition to our local community.

Sincerely,

Christi Mehringer
Marketing Manager, Crew Carwash
