McCordsville, Indiana 46055

**Re: Town of McCordsville - Mount Comfort Road CSX Railroad Crossing
Updates to Technical Memorandum Cost Evaluation of the Dual Underpass
Final Submittal**

Dear Mr. Witsman:

The following documents are attached for your reference and use:

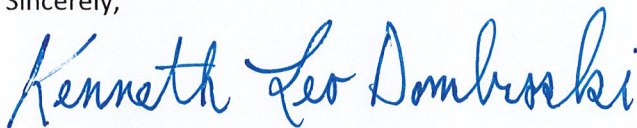

- Technical Memorandum for the Updated Cost Evaluation for the Dual Underpass
- Most recent version of the ten percent design (line, grade, and typical) plans for dual underpass in PDF format
- Most recent version of the dual underpass renderings

After our original submittal in 2021, we have observed an increase in oversight by railroad owners and operators in the allowance of vehicular crossings under their facilities. These projects can still be accomplished by a municipality like McCordsville but will require a good deal of coordination with the railroad, with possible adjustments requested by CSX. An example of a recent underpass approved by CSX is described in the following link.

[Exit 8 Railroad Tunnel Project | Hendersonville, TN](#)

Please let us know if the Town of McCordsville needs any assistance with any early coordination with CSX.

Sincerely,

Kenneth Leo Dombroski, PE, MPA
Principal Engineer

Encl.
