McCordsville Indiana, 46055

November 15, 2021

Mr. Crider,

The Heavy Equipment Program at Ferris State University greatly appreciates the in-kind donation of a Cummins Onan GenSet 125 KW Generator Model DGEA 338-0689 to our organization. This donation ensures that the students in our programs receive a first-rate education and is instrumental in our continued success of recruiting for the program, by enabling us to continue providing first rate events such as Diesel Days.

Your generosity allows our program to maximize the limited financial resources to purchase other essential items needed for the day-to-day operation of our programs. The students, faculty and staff greatly benefit from your donation.

Again, thank you for your generous support of the Heavy Equipment Program.

Sincerely,

Dan Meyers
Program Coordinator | Associate Professor
Heavy Equipment Technology | Automotive Management
