

## 2022 ADA Ramp replacement

This year we contacted three concrete companies to remove and replace all the remaining non-compliant ADA ramps in town. These ramps are located in Austin Trace (34 ramps), Deer Crossing (16 ramps), Bay Creek East (34 ramps), and Villages at Brookside (5 ramps). We contacted Mattingly concrete, Concrete Indy, and D and D concrete.

Mattingly Concrete- \$76,907.00

Concrete Indy- \$102,285.00

D and D concrete- we are still waiting for a response, was supposed to be to us on 5/23/2022

Ron and I propose using Mattingly concrete for the replacement of all 89 remaining ADA ramps in the town. Mattingly is the company that won the bid for 2021 ramps as well.
