Town of McCordsville Board of Zoning Appeals 6280 W. 800 N. McCordsville, IN 46055

Attn: Ryan Crum, Director of Planning and Building

Re: Variance Signage Request – Coffee At The Crossing, LLC

Dear Ryan,

Attached with this Statement of Intent are two (2) signed Variance Requests for the proposed signage for Coffee At The Crossing, LLC. The proposed signage will be located on the north facing elevation and not towards a public street. I am kindly requesting a variance due to the unique design of the structure and limited west façade. The north elevation is located on an alley way and faces towards Broadway, which lends to visibility.

In addition, the proposed signage has been aesthetically designed to convey the purpose and character of the business. The locomotive and business name measurers larger than the Town Ordinance permits. The design is in proportion with the two-story structure and is visually appealing between roof pitch and gable. I am requesting for a variance allowing the signage to exceed the required linear feet.

Thank you for your consideration of this request.
